

# **Real Estate Transactions Contaminated Property Mitigation**

James P. Rigano, Esq.

New York State Bar Association Continuing Legal Education publications are intended to provide current and accurate information to help attorneys maintain their professional competence. Publications are distributed with the understanding that NYSBA does not render any legal, accounting or other professional service. Attorneys using publications or orally conveyed information in dealing with a specific client's or their own legal matters should also research original sources of authority.

We consider the publication of any NYSBA practice book as the beginning of a dialogue with our readers. Periodic updates to this book will give us the opportunity to incorporate your suggestions regarding additions or corrections. Please send your comments to: CLE Publications Director, New York State Bar Association, One Elk Street, Albany, NY 12207.

## TABLE OF CONTENTS

<b>Chapter 1 Resolving the Concerns of Buyers, Sellers, Lenders, Tenants and Landlords</b>		
[1.0]	I. Lender Concerns .....	3
[1.1]	II. Parties' Concerns: Contract of Sale .....	4
[1.2]	A. Environmental Assessment .....	4
[1.3]	B. Definitions .....	5
[1.4]	C. As-Is and Assumption of Liabilities Clause.....	7
[1.5]	D. Representations .....	8
[1.6]	E. Release .....	9
[1.7]	F. Indemnification .....	9
[1.8]	G. Survival Clause .....	10
[1.9]	H. Summary .....	10
[1.10]	III. Lessors' Concerns .....	11
[1.11]	A. Compliance with Laws.....	11
[1.12]	B. No Representations .....	11
[1.13]	C. Handling Hazardous Materials.....	11
[1.14]	D. Discharge of Pollutants .....	12
[1.15]	E. Tenant's Cleanup Obligations.....	12
[1.16]	F. Landlord's Inspection of Tenant Activity .....	12
[1.17]	G. Asbestos Removal.....	13
[1.18]	H. End-of-Lease Inspection .....	13
[1.19]	I. Indemnification by Tenant .....	14
[1.20]	J. Prohibition on Installation of Subsurface Structures.....	14
[1.21]	K. Survival of Environmental Provisions .....	15
[1.22]	IV. Environmental Insurance.....	15
[1.23]	A. Types of Coverage .....	15
[1.24]	B. Application Process.....	16
[1.25]	C. Key Parts of the Policy.....	16
<b>Chapter 2 Due Diligence and Reporting Requirements</b>		
[2.0]	I. Due Diligence Process .....	21
[2.1]	A. Phase I and Phase II Environmental Site Assessment.....	21
[2.2]	B. Costs.....	23
[2.3]	C. Summary of Due Diligence Process .....	24
[2.4]	II. Reporting Requirements.....	24
[2.5]	A. New York State Reporting Requirements for Hazardous Substances (Non-petroleum).....	25

[2.6]	B. Federal Reporting Requirements for Hazardous Substances .....	26
[2.7]	1. Emergency Planning and Community Right-to-Know Act .....	26
[2.8]	2. Resource Conservation and Recovery Act.....	27
[2.9]	C. Notice Requirement by Landlords for Indoor Air Contamination .....	27
[2.10]	D. Reporting Requirements for Petroleum.....	27
[2.11]	E. Local Requirements.....	29

**Chapter 3 Liability, Tax Consequences and Cleanup Programs**

[3.0]	I. Liability .....	33
[3.1]	A. Who Is Liable .....	34
[3.2]	B. Contribution Actions .....	35
[3.3]	C. Personal Liability .....	38
[3.4]	D. Defenses to CERCLA Liability.....	39
[3.5]	E. Summary .....	42
[3.6]	II. Tax Advantages and Burdens Associated with Subsurface Cleanup .....	42
[3.7]	A. Federal Tax Incentive.....	43
[3.8]	B. New York State Brownfield Tax Credits .....	43
[3.9]	C. New York Taxes.....	44
[3.10]	III. Cleanup Programs .....	45
[3.11]	A. New York State’s Brownfield Cleanup Program....	46
[3.12]	1. History and Program Overview.....	46
[3.13]	2. Principal Elements of the Brownfield Cleanup Program.....	47
[3.14]	a. Eligibility .....	47
[3.15]	b. Volunteer Responsibilities and Benefits...	48
[3.16]	c. Participant Responsibility .....	48
[3.17]	d. Cleanup Agreement .....	48
[3.18]	e. Engineering and Institutional Controls.....	49
[3.19]	f. DEC to Address Offsite Contamination ...	49
[3.20]	g. Public Participation.....	49
[3.21]	h. Certificate of Completion .....	49
[3.22]	i. Responses .....	50
[3.23]	j. Tax Benefits.....	50
[3.24]	3. Soil Cleanup Requirements.....	50
[3.25]	4. Groundwater Protection and Remediation Program .....	51
[3.26]	5. Land Use Restrictions .....	51

[3.27]	B. New York State’s Inactive Hazardous Waste Site Program.....	53
[3.28]	1. Determination of Liability.....	53
[3.29]	2. Regulatory Requirements .....	54
[3.30]	a. Site Definition .....	54
[3.31]	b. Significant Threat .....	54
[3.32]	c. Responsible Parties.....	55
[3.33]	d. Site Classification .....	55
[3.34]	e. Investigation and Remedial Alternatives ...	55
[3.35]	f. Interim Remedial Measures.....	55
[3.36]	g. Remedial Goals and Objectives and Soil Cleanup Standards.....	56
[3.37]	h. Groundwater Cleanup.....	56
[3.38]	i. Environmental Easements .....	56
[3.39]	j. Certificate of Completion .....	57
[3.40]	k. Citizen Participation .....	57
[3.41]	C. Oil Spill Cleanup Requirements.....	57
[3.42]	1. Liability .....	57
[3.43]	2. Reporting Requirements and Documentation .....	58
[3.44]	3. Cleanup Guidance .....	58
[3.45]	4. Costs and Impact .....	58

#### **Chapter 4 Types of Contamination and Recommendations for Remediation**

[4.0]	I. Subsurface Contamination .....	63
[4.1]	A. Soil Contamination.....	65
[4.2]	B. Groundwater Contamination.....	67
[4.3]	C. Soil Vapor Intrusion .....	68
[4.4]	1. Federal Guidance .....	70
[4.5]	2. State DOH Guidance.....	71
[4.6]	3. Sampling .....	71
[4.7]	4. Interpretation of Sampling Results.....	72
[4.8]	a. Background Levels .....	72
[4.9]	b. Health-Based Guidance .....	73
[4.10]	c. Sub-slab/Indoor Air Decision Matrices....	73
[4.11]	5. Community Outreach .....	73
[4.12]	6. Remediation Alternatives.....	74
[4.13]	II. Surface Contamination .....	74
[4.14]	A. Asbestos .....	75
[4.15]	B. Lead.....	77
[4.16]	1. Federal Requirements.....	78
[4.17]	2. New York State Requirements.....	78

[4.18]	3. New York City Requirements .....	80
[4.19]	C. Radon .....	81
[4.20]	D. Mold .....	81
[4.21]	E. Sick Building Syndrome .....	82
[4.22]	F. Other Indoor Air Problems.....	83
	Table of Authorities .....	85
	Author Biography .....	89

## **ABOUT THE AUTHOR**

---

### **JAMES P. RIGANO, ESQ.**

James Rigano has concentrated his practice exclusively in environmental law for more than two decades. He served in the Enforcement Division of the U.S. Environmental Protection Agency, where he was involved in various water pollution control programs. He also was environmental counsel to the New York Power Authority, where he was involved in the permitting of and environmental issues associated with hydroelectric facilities and major transmission lines.

Mr. Rigano has extensive experience in subsurface contamination and solid waste issues and has represented clients in numerous matters before environmental regulatory agencies. He has negotiated environmental issues in numerous transactions; has handled a broad range of cases involving wetlands, open space and air pollution issues; and has litigated cost recovery actions. He also has had substantial experience with subsurface soil gas issues. With regard to brownfield development projects, Mr. Rigano has negotiated technical and environmental issues and has addressed a broad range of complex regulatory concerns in the redevelopment of contaminated property.

Prior to practicing law, Mr. Rigano was employed for five years as an environmental scientist, conducting research on the environmental effects of electric power generation.

Mr. Rigano has authored more than 40 articles and has lectured extensively on various environmental insurance coverage topics. He has also chaired more than 20 environmental conferences. Among his many active involvements in business, civic and bar association organizations, Mr. Rigano chairs the Environmental and Energy Task Force for Action Long Island and co-chairs the Continuing Legal Education Committee of the Environmental Section of the New York State Bar Association. He serves on the boards of the Nassau County Boy Scouts, the Association for a Better Long Island and St. Paul's Greek Orthodox Church. *Long Island Business News* featured him in its "Who's Who in the Law" edition.

Mr. Rigano received his J.D. from Hofstra University School of Law in 1982. He also holds an M.S. in biology from New York University and a B.S. in marine and environmental science from Adelphi University.
