Dominick Ciacciarelli is the Practice Group Leader of the Infrastructure and Enterprise Systems Practice Group at Kraft Kennedy. Dominick is a thought leader in the use, implementation, and security of cloud technologies such as Office 365 and Microsoft Azure. With over 15 years of industry experience, he has a broad skillset that includes designing, deploying, and supporting multiple global Microsoft Windows Active Directory and Exchange environments. He has also worked extensively with task automation and the streamlining of day-to-day administration of IT infrastructure.
