

TO PROSPECTIVE MENTORS
ELDER LAW SECTION MENTORING PROGRAM LOOKING FOR MENTORS

The Elder Law Section is pleased to announce its mentorship program which will pair an experienced elder law attorney with a Section member new to the practice of elder law. The mentoring program will provide

A one-on-one mentoring initiative matching experienced Elder Law attorneys with those who are newer to the practice;

Opportunities to work together on section programs, reports and events that will enhance careers and the profession; and

Continuing legal education programs tailored to new Elder Law attorneys,

We anticipate that the mentoring relationships will incorporate a number of different elements, encompassing a mix of formal and more "ad hoc" opportunities for mentors and mentees to collaborate. On the formal side, Section Committee Chairs are poised to welcome mentor/mentee pairs to work together on committee projects, reports, events, etc. We are also considering "tracks" of CLE programs at upcoming Section meetings that will be suitable for mentors/mentees to attend together. As for ad hoc opportunities, we look forward to seeing what pairs come up with, and to learning from one another. We hope that there will be at least one communication per month, whether in person, by telephone or email, to keep continuity and maximize the value to the participants.
