Published by the NYSBA

2013

INTRODUCTION

As a New Yorker, age 60 or older, you may be missing out on dollar benefits and community services that could be yours. In this pamphlet, you'll find important facts about how finances and age affect eligibility, and little-known rules regarding eligibility.

Each county in New York State, outside of New York City, has an Office for Aging that can also provide more information about these programs.

If you are unable to contact your local Office for Aging, you should contact the State Office for Aging at (800) 342-9871. The New York City Human Resources Administration information and referral number is (877) 472-8411.

This pamphlet introduces seventeen major benefit programs:

1. Social Security
2. Medicare
3. Medicare Buy-In
4. Medicaid
5. Supplemental Security Income (SSI)
6. Temporary Assistance
7. Veterans Benefits
8. Elder Pharmaceutical Insurance Coverage (EPIC)

General Eligibility Rules

Because financial requirements may vary, check with the individual program. Refer to the following as a broad guideline.

Resources: Defined as assets, or property that you own. Resources that usually affect eligibility are cash, bank accounts, investments and valuables. Resources that generally do not count are a home, car, income-producing property and personal effects. There are usually special rules for separated or non-eligible spouses and for “spending down” resources.

Before transferring resources, including your home, consult an Elder Law Attorney.

Income: Both earned and unearned usually count. Earned income is wages for work performed. Unearned income includes social security, supplemental security income, pensions, interest, valuable gifts. In-kind income—when others pay for services—may or may not be counted. Check with each program. Because eligibility is often based on net income, look for deductions that may make you eligible.

Apply: Even when you are not sure that you qualify, apply. You may apply by mail,

phone, in person, through an authorized representative or, if homebound, by requesting an in-home interview.

The income and resource numbers in this pamphlet are the 2013 figures. The income and resource levels may increase annually. Please check with the appropriate agency if you are using this pamphlet after 2013.

Income: No limit. (See below)

Part A- Hospital Insurance

Anyone 65 or over who is eligible to receive Social Security or Railroad Retirement benefits is automatically eligible and pays no premium. Others may purchase this insurance for a monthly premium. Co-insurance and deductible payments are adjusted annually. In 2013, Part A covers all in-patient hospitalization costs in any benefit period, except for a deductible of \$1,184 and a co-pay of \$296 per day for days 61 through 90, and \$592 per day for days 91 through 150.

Skilled Care in a Nursing Facility is covered for up to 100 days following at least a three-day hospitalization in any benefit period with a co-insurance of \$148 per day for days 21 through 100.

Home Health Care and Hospice Services are also available.

Part B - Medical Insurance

Medicare Part B beneficiaries will pay the minimum monthly premium of \$104.90 (in

2013). Individuals with annual income over \$85,000 (\$170,000 for married couples) will pay a higher monthly premium based on a sliding scale of income. Medicare pays 80% of the approved charge and the beneficiary is responsible for both the 20% co-pay and an annual deductible of \$147.

Note: There is a cap on fees doctors may charge—in New York, the cap is 5% above the Medicare approved limit. (This limit does not apply to home or office visits.)

Free assistance is available from the Medicare Rights Center: (800) 333-4114; (212) 890-3850; and from the Health Insurance Counseling and Assistance Program (HIICAP): (800) 701-0501. NYC residents may also call the NYC HIICAP help line: (212) 333-5511.

Part C - Medicare Advantage

Medicare Advantage Plans cover all Part A and Part B services. Care is provided by private companies as an alternative to traditional Medicare Parts A and B. Premiums and co-payments may be lower than traditional Medicare, but all care must be provided or approved by the Managed Care Plan. Many plans include prescription drug coverage. For information and assistance, call Medicare: (800) 633-4227, or go to www.medicare.gov.

Part D - Prescription Drug Coverage

Medicare Part D prescription coverage is provided by a variety of private plans. Unlike Parts A and B, people must take action to enroll in Part D. Premiums and the extent of coverage for the many private plans vary widely. The basic Part D benefit

requires a minimum deductible of \$320 (same as in 2012) and then the plan pays its share until what they have paid (plus the deductible) reaches \$2,930. There is then a coverage gap until the Medicare Part D beneficiary has paid \$4,700 out-of-pocket for the year. Once the consumer has paid \$4,700 out of pocket for the year, the plan should pay the majority of prescription expenses (less a small co-pay for each drug) for the rest of the year. See internet website at: www.medicare.gov (The website allows consumers to search for a local plan. However, consumers should check with local providers before enrolling in a plan to make sure the information provided online is accurate.

Please note that these income figures are usually adjusted on an annual basis. Health insurance premiums are an allowable deduction in determining income. This program is not retroactive; the sooner you apply, the sooner you receive benefits.

NOTE: *There are complex rules for transfer of assets by persons applying for Medicaid. See below.*

Income: \$800 per month for an individual; \$1,175 per month for a couple.

There is no penalty for transfer of assets when applying for community Medicaid (community Medicaid includes some home care services, some adult day care programs, prescription drug coverage, etc., but does not include institutionalization in a skilled nursing facility). Disabled individuals may deposit their surplus income to a supplemental needs trust.

Transfer of Resources and Income Rules: If one spouse is institutionalized, the spouse in the community may keep at least \$2,898 per month of the couple's combined income after deducting health insurance premiums. For advice regarding benefit reductions due to living arrangements or receipt of loan repayments, consult a private or legal services attorney. In 2013, the maximum monthly benefit is \$797 per an individual/\$1,170 couple. Wages of more than \$1,000 per month generally cause benefits for disabled individuals to be discontinued. However, in some instances, a working individual may earn more than the limit and remain eligible for SSI.
