Earth, Wind & Fire, “Got to Get You into My Life” – Cleaner and Cost-Effective Energy – Parlor
1.5 MCLE Credits | Areas of Professional Practice

Partly in response to climate change, New York and other states are experiencing a boom in solar, on and offshore wind, and energy storage projects. Because renewable-energy generation technologies provide variable output, New York and other states are creating incentives to integrate energy storage solutions into new and existing renewable-energy ventures. This panel will discuss how these different technologies work separately and together, as well as the current state of play and possible future developments in the siting, permitting and financing of solar, wind and energy storage projects.

Panel Chair:

Gregory M. Brown, Esq., Brown Duke & Fogel, P.C

Panelists:

“We Built This City on Rock and Roll” (with a little help from our friends) – Risk Management & Project Financing R.E. Transaction – Parlor
1.0 MCLE Credit | Areas of Professional Practice

This panel will explore a hypothetical real estate transaction and address specific issues that arise in the context of New York State’s Brownfield Cleanup Program (BCP), including: implications of BCP tax credits on deal structure and financing, real estate financing hurdles, balancing remediation goals with project finance, risk mitigation and role of insurance products, and related matters. The goals of the program are for attendees to (A) get a “behind the scenes” look at how legal experts in the areas of the BCP and environmental insurance grapple with and resolve day-to-day issues in transactions and (B) acquire practical pointers and advice. Attendees will be invited to ask questions during the program in order to facilitate conversations with the panelists.

Panel Chair:

Jose A. Almanzar, Esq., Periconi, LLC, New York, NY

"I Walk the Line" – Ethics & Environmental Law – Parlor

1.0 MCLE Credit | Ethics and Professionalism

While all attorneys must maintain technological competence, for environmental attorneys this goes beyond computer programs and the cloud. Recent rapid changes scientific understanding and environmental regulation make providing competent representation a challenge. This presentation will examine what competence means for an environmental attorney in 2019, and how to render candid advice to clients in the face of scientific and regulatory uncertainty.

Speaker:

Amy K. Kendall, Esq., Knauf Shaw, LLP, Rochester, NY

"The Big Bright Green Pleasure Machine" a.k.a. Complying with Environmental Law, Testing and Equipment - Sports Field

1.0 MCLE Credit | Areas of Professional Practice

Environmental Attorneys have to review data on a daily basis, but few of us have observed how consultants physically obtain samples in the field, and maintain quality assurance protocols, for the data we review every day. During this outdoor interactive session, three consultants will show us the equipment they use to take soil, soil vapor and groundwater samples, and discuss the problems they typically encounter, and how they resolve those issues. In addition, the consultants covering the soil and groundwater environmental media will show us the different techniques they use for emerging contaminant sampling. A summary of the applicable sampling regulations and guidance documents will also be provided.
