SCHEDULE OF EVENTS

Healthcare Delivery System and Payment Reform in New York State

Federal, state, and private sector initiatives across New York State and the rest of the country are aiming to promote delivery system and payment reform. These initiatives are intended to transform the health care delivery system in local healthcare markets to reduce health spending while preserving or enhancing the quality of care. Healthcare attorneys advising their clients in connection with such initiatives have to address challenging organizational, governance, contractual, regulatory, and other legal issues.

The Fall Meeting will provide an unprecedented opportunity to discuss the implications of these initiatives on the organization of healthcare delivery in New York State and the strategies that healthcare lawyers are developing to address the related legal issues and challenges. The Fall Meeting brings together leading attorneys, policymakers, experts, and implementers to provide unique and in-depth insights on these ongoing delivery system and payment reforms. The Fall Meeting will cover a variety of topics including New York's Delivery System Reform Incentive Program (DSRIP), accountable care organizations (ACOs), innovative contract and payment arrangements, and related legal issues.
