Join us for a CLE-accredited program focused on the implications of the recent decisions in *Schoenefeld v. Schneiderman*, No. 11-4283 (2d Cir., April 22, 2016) and *Schoenefeld v. State*, 25 N.Y.3d 22 (N.Y. 2015), which, collectively, require attorneys practicing in New York to maintain a physical office in the State. For Florida attorneys who are licensed in and practice in New York, these decisions can have significant practical effects, and the CLE will address those issues.

Following this program, stay for a reception during which the New York State Bar Association and the Florida Bar, International Section plan to sign a formal Memorandum of Understanding providing for further cooperation and coordination between these two leading international law bar associations.

Visit www.nysba.org/ilp for more information about this program, and the International Section.
