ABOUT US.

Llincs is an association of young professionals dedicated to enhancing the Long Island community, as well as our professional and personal lives. Llincs are committed to self-improvement, professional development and active engagement in matters pertaining to the economic, governmental, social and environmental future of Long Island. We represent the next generation of Long Island leadership, and we will cultivate, support and provide a unified voice for 22-to-35-year-olds.

Destination LI is a nonprofit community building and educational organization dedicated to helping people create and sustain vibrant centers throughout the region that strengthen the local economy and community. Our innovative grassroots approach transforms citizens into agents of change who rejuvenate disinvested spaces into a new generation of welcoming, energetic and inspiring destinations.

The U.S. Green Building Council is the nation's foremost coalition of leaders from every sector of the building industry working to promote buildings that are environmentally responsible, profitable and healthy places to live and work.

USGBC's core purpose is to transform the way buildings and communities are designed, built and operated, enabling an environmentally and socially responsible, healthy, and prosperous environment that improves the quality of life. USGBC-LI works to bring these values to the communities of Long Island.

The mission of the Urban League of Long Island, Inc. is to empower African Americans and other disenfranchised individuals to secure economic self-reliance, parity, power and civil rights. The Urban League of Long Island Young Professionals (ULLIYPs) is a volunteer auxiliary that targets young professionals ages 21-40 to empower their communities and change lives through the Urban League Movement. Our mission is to support the Urban League Movement through our volunteerism, philanthropy and membership development.
