

The New York State Bar Association Environmental and Energy Law Section (EELS) is offering sponsorship and participation benefits for both of its upcoming Fall and Annual Meeting Conferences (see view/download sponsor form). For example, the \$2,500 sponsorship covers full benefits at the Platinum level covering both programs.

We will be seeking to acknowledge our sponsors in many ways for their support. To be included in the programs as a sponsor, logo and commitment form is needed by **September 14** at latest.

The program is marketed to more than 70,000 NYSBA attorneys, and hundreds of our 1000+ EELS lawyers participate in these programs.

Attached is information about the Fall Program, sponsorship levels, and great exposure and networking benefits.

Benefits of sponsorship include:

- Your logo will be emblazoned on all program advertisements, emails, and final program materials;
- Networking with the prominent EELS lawyers and future potential panelist opportunities;
- Ensuring that environmental counsel will advocate for our vendor partners to work on behalf of our common clients; and
- Obtaining critical updates that will help you to keep abreast regarding the ever-changing field of environmental and energy law.

Kindly send the completed sponsorship form, registration form and corporate logo to **Lori Nicoll** (Lnicoll@NYSBA.ORG) by **September 14, 2018 at latest**.
